

Assessment Task 3: Product Design Worksheet

Group	Student Name (print)	Student Number
23	Zicheng Ye	
	Maoferi Pan	
	Yuan Chen	12869412

We will create an application for who are busy or lazy to deal ^(persona type)
 with their cooking but still wanna have proper/healthy ^{life style}

that helps them organizing their shopping ^{list} and providing relative ^(pain point)
~~LL~~ recipes

by providing diverse choices for recipes to select and ^(functionality)
~~for~~ output shopping list for recipes.

The app will need data models for customer ~~inf~~ registration
& recipes info
& shopping list

and custom views for log in & register
selecting & recipes/view recipes/
shopping list

and frameworks to interface with
